MUHAMMAD AGENG ZAYEM WAHID

Yogyakarta | agngwahid123@gmail.com | 082178040716 | linkedin.com/in/ageng14 | github.com/agengwahid

Bachelor of Informatics graduate from Ahmad Dahlan University with a GPA of 3.91/4.00, completed in 3.5 years. Passionate about backend development, cloud computing, and web application development. Experienced as a Teaching Assistant and a graduate of the MSIB Bangkit Academy (Cloud Computing) program. A collaborative and analytical individual with strong problem-solving skills, eager to contribute to developing scalable and reliable software solutions.

EDUCATION

Ahmad Dahlan University (UAD) 2022 – 2026
Bachelor of Informatics | GPA 3.91/4.00

SMA Negeri 1 Lebong 2019 – 2022
Science Major

PROJECTS

Student Grade Management System – SMK Negeri 1 Lebong. 2026

- Fullstack Developer - Designed and developed a student grade management system using Laravel, PHP, and MySQL. Implemented authentication, student management, grade input, and monitoring dashboard features to improve the efficiency and organization of academic data management.

Derma Scan – Bangkit Academy Capstone Project 2024

- Backend Developer – Developed RESTful APIs using Node.js and integrated Google Cloud Platform services to support a machine learning-based skin disease detection application. Successfully connected the backend with the machine learning model and database to enable seamless prediction processing.

Kost Panjie Management & Profile Website 2024

- Web Developer – Developed a web-based boarding house management system using PHP, HTML, CSS, and JavaScript. Built features for resident management, room information, and administrative operations to simplify data management and information delivery.

Personal Portfolio Website 2025

- Frontend Developer – Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase professional profile, technical skills, projects, and contact information.

EXPERIENCE

Teaching Assistant – Informatics Laboratory, Ahmad Dahlan University 2023 – 2025

- Assisted laboratory sessions for courses including Introduction to Programming, Programming Algorithms, Informatics Logic, and Operating Systems. Guided students in solving programming problems, provided technical support during practical sessions, and evaluated assignments and laboratory work.

Staff of Science and Technology Department – Informatics Student Association 2023 – 2024

- Collaborated in planning and organizing academic and technology-related programs aimed at enhancing students' technical knowledge and professional development.

Steering Committee Informatics Week – Ahmad Dahlan University 2024

- Coordinated event preparation and execution by collaborating with multiple committees, managing schedules, and ensuring all activities were carried out according to plan.

TRAINING

MBKM – MSIB Bangkit Academy (Cloud Computing) 2024

- Completed the Indonesian Independent Campus (MBKM) program specializing in Cloud Computing, covering Google Cloud Platform, backend development with Node.js, RESTful API development, databases, application deployment, and collaborative software development through a capstone project.

CERTIFICATIONS

Bangkit Academy Graduate – Cloud Computing 2024

Dicoding Certifications

- Google Cloud Engineer
- Backend Development with Google Cloud
- Machine Learning Implementation with Google Cloud
- JavaScript Programming Fundamentals
- Git & GitHub Fundamentals

SKILLS

Technical Skills :

- PHP
- Laravel
- JavaScript
- Node.js
- Express.js
- Database (MySQL, NoSQL)
- Google Cloud Platform (GCP)
- RESTful API
- Git & GitHub

Soft Skills :

- Problem Solving
- Communication
- Teamwork
- Time Management
